Mobile Learning Trolley Colourful Building Blocks

length: 49,5 cm width: 34,5 cm
height: 66,5 cm Ø:
weight: 22,3 kg

content: 1 trolley, 4 boxes with 336 building blocks geared to a grid size of 30 mm

Mobile, well assorted and space economising – all distinguishing features of the Erzi Mobile Learning Trolley. The sturdy-designed plastic boxes provide lots of room for stowing and tidying up learning or playing material.

Discovering and understanding shapes and colours are basic necessities for successful child-upbringing. Intelligently designed playthings are essential for supporting child development and guidance. The ability to recognise and name different colours and shapes is a valuable aid to concentration, creativity and acquiring fine motor skills, and is just one of the examples of how Erzi building blocks can be made to promote cognitive and motor abilities. The enormous variety of playing options encourages youngster to develop their own symmetrical shapes, colours, figurative sculptures, 2- or 3-dimensional structures, harmonising or contrasting with one another.

Variety of shapes

and fantastic colours

► INFO

Aspects of discovering and grasping shapes and colours are regarded as basic essentials of child development. Professional toy designing serves to guide and support the child in acquiring these faculties. The ability to detect and name individual shapes and colours and the development of powers of concentration, creative, cognitive and motor skills are just a few of the examples promoted by the use of Erzi stacking shapes and boards. The wide range of plug-in and play facilities results in harmonious symmetry of shapes and colours or figured sculptures emerging as well as flat or spatial structures. Used on a stacking board, each block comes in 4 different shapes with corresponding colours. They are also capable of being employed freely as thread units or colouring stencils.

 material: birch plywood, waxed; beech coloured
 laquered

The Maxi Mix contains 16 different forming blocks designed with basic and figured shapes. The blocks come in primary colours yellow, red, blue and green as well as in mixed colour blends of yellowish green, orange, magenta and turquoise.

Maxi Mix provides playgroups, no matter how small or large, with plenty of variety for creating imaginative combinations while offering playing opportunities galore.
 Registered design.

► INFO

The basic puzzle design of the stacking board makes it possible to assemble and combine two or more stacking boards to create that special experience. Puzzling exercises serve to convey a clear grasp of the coherence linking shape with colour.

Erzi EXPLAINS

The playing blocks used on the two stacking boards Basic and Style complement one another as regards shape and colour.

STACK A
TOWER

1

42095

Sensory bag Einstein

length: 30 cm width: 20 cm
height: 8 cm Ø:
weight: 425 g

content: 24 wooden pieces in a bag with 8 cards and a thread

material: beech, nature and coloured laquered; cotton
set of multi functional coloured wooden blocks; mapping, threading and feeling game. To promote visual and tactile imagination, concentration, the language of colours and shapes, motor skills and memory.

2

2

42511

Activity Cube

length: 15 cm width: 15 cm
height: 6,5 cm Ø:
weight: 480 g

content: 1 box with sliding cover, 12 blocks, 1 thread and cord

material: beech, nature and coloured laquered
The development and experience of the different shapes and colours are the basics of every childhood. By means of special designed toys, the child will be instructed, supported and motivated to match shapes and colours. The big geometric shapes are easy to grasp and have to be assorted in the corresponding holes in the sliding cover on the top of the box. In fact, using the threader improves the children's fine motor skills. After playing everything will be put back well sorted into the box.

11	Building blocks BASIC	41081

Each one of the 12 different shapes is included 4 or 8 times. Each block with a natural finish comes with three coloured blocks of the same shape. A special feature of the Erzi blocks is the many different shapes allowing individual constructions and providing lots of fun. Through their uniform sizes and pattern shapes all blocks can be combined in many different ways. Our block mixtures are available in 10 bright colours and they can be combined freely. Our colours conform to European toy safety standards and are sweat and saliva proof.

Mobile, well assorted and space economising – features that always distinguish Erzi Mobile Learning Trolleys. The sturdily-designed plastic boxes provide lots of room for stowing and tidying up children's learning or playing material.

Discovering and understanding shapes and colours are basic needs for successful child-upbringing. Intelligently designed playthings play an essential role in supporting child guidance and development. Erzi wooden building blocks appeal to all children and are ideal for three-dimensional building activities as well as for free-form or creative designing. In a playful manner the child learns how to apply mathematical as well as structural or static principles. Youngsters develop a sense and feeling for proportions, while recognising and naming different shapes, and learning to concentrate, thus furthering their cognitive and motor skills.

42265

Ghost board

length:..... 112 cm width:..... 24 cm
height:..... 8,3 cm Ø:..... -
weight:..... 3,09 kg

content: 1 game board, 5 rotating ghosts (attachable with a turn- and snap-lock fastener), 25 stacking ghosts, wall mount fixture, fastening material, playing and mounting instructions

material: birch plywood, laquered; beech, coloured laquered

This role-play is suitable for all ages. The ghosts appear in different, luminous colours with funny faces. When the ghosts are stacked, the game becomes suspenseful: Which ghost will make the stack fall?! If the Erzi Ghost Board is mounted vertically, the 30 ghosts in total can be stacked the highest.

For concentration and strategy, children can achieve great success with this variant. If the stack falls, however, a stacking ghost remains standing only rarely. Due to different stacking heights, small and older children and play with the ghost board at the same time. The slim form makes it possible to integrate the ghost board into small playing areas as well. In the crosswise format, the ghost board is particularly suited for small children. Up to 5 children next to each other can play with the ghosts or build small ghost stacks. Here, the storage slots can also be used as grab handles. Arranging the ghosts in the storage slots is a good way to make cleaning up fun.

Registered design.

Warning! Not suitable for children under 36 months. Choking hazard! Contains small parts.

5

42268

Ghost 'n' Ghost Soccer

length:..... 30 cm width:..... 6,9 cm
height:..... 5 cm Ø:..... -
weight:..... 21 g

content: 18 stacking ghosts, 3 soccer balls, playing instructions

material: beech, coloured laquered

And now, let's roll, because the Erzi stacking ghosts are playing soccer! With 18 ghosts and 3 balls in German colours, the winner of the Soccer Stacking Ghost World Cup will be determined. When the ghosts are stacked, the game becomes suspenseful: Which ghost will make the stack fall?! If you don't want to stack them upwards, the game offers other possibilities—setting up the ghosts as dominoes, for example, sets the game in motion. This game is a MUST for every half-time! Including game instruction with the „Dribbling“ and „Player Transfer“ variants. Registered design.

3

43232

Water and marble run

length:..... 50,5 cm width:..... 14,5 cm
 height:..... 7,5 cm Ø:..... -
 weight:..... 2,35 kg

content: 7 marble runs in wood; 4 wooden scrapers;
 1 cork plug; 3 marbles in wood and glass

material: beech, coloured laquered

"The goal is the journey itself". This is a playful method for
 children to learn by dint of hard work how rewarding the
 whole game can really be when the goal is finally reached.
 Running water or rolling marbles proceed on a downward
 course. No matter whether used in summer or in winter,
 indoors or out in the sandpit, children will derive fun and
 pleasure from this product everywhere and at any time of
 the year. A closer look at the way the Marble Course works
 suffices to disclose its true potential. A small dam brings
 the marble to a halt, causing the water to overflow. Small
 holes at the sides are ideally suitable for inserting small
 sticks or flowers which serve to decorate the route while
 enhancing creativity. A hole can make the marble or the
 water disappear and set it in motion again at another level.

A supplied plug (cork) serves to complement this feature.

Warning! Not suitable for children under 36 months. Choking and suffoca-
 tion hazard! Contains small parts and balls.

42002

Educational volume theory game, large set

length: 30 cm width: 20,5 cm
height: 5 cm Ø:
weight: 1,95 kg
content: 72 pieces in the game box including 3 sets of 6 cards each

material: beech, coloured laquered

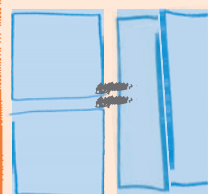

Up to 6 children may compare with each other three actually quite different blocks and find out that they somehow have the same size. The child learns for example that a cube with an edge length of 30 mm and a square of 30 x 15 x 60 mm are equal in size by using one of the six different cards to place the two bodies next to each other in such a way that their total size (volume) is equal.

► INFO

Volume is too abstract a term to be used on its own. This can be easily explained with the aid of building blocks illustrating that different physical shapes can reveal identical volume.

3 SETS OF 6 CARDS EACH

COMPARE VOLUMES FOR EASY UNDERSTANDING

Letters & Numbers

RECOMMENDED AGE
4+

The Erzi recommendation for preschoolers:

Learning the alphabet and the numerals is an activity taken literally by Erzi.

The Erzi "hands-on" approach is a useful means of understanding capitals, small letters and numerals.

Outlining and then cutting them out, crafting or simply tracing them with a stylus is a good way to commit them to memory, thus underlining the importance of this activity, especially for preschool children.

 weight:..... 1,37 kg

content: 1 plastic box, 42 wooden pieces, 1 colouring and copying pattern

The Fruit and Vegetable Learning Box contains materials for educational games focused on shapes, colours and other specific attributes of these grocery items. The different varieties of fruits and vegetables serve to coach motor skills, fine motor skills in particular, as well as manual and visual coordination, while enhancing cognitive skills and abilities or teaching the fundamentals of mathematics and aesthetics. The colouring and copying patterns are intended to consolidate the knowledge thus acquired.

Contents: 3 green apples, 3 green-red pears, 3 plums, 3 double-cherries, 3 strawberries, 3 oranges, 3 lemons, 3 large bananas, 1 bag of potatoes, 3 carrots, 3 tomatoes, 1 bag of onions, 1 bunch of radishes, 3 cucumbers, 3 yellow peppers, 3 mushrooms, 1 colouring and copying pattern

Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

2

42492

Learning Box Nutrition Circle

length:..... 42,7 cm width:..... 31,2 cm
 height:..... 7,5 cm Ø:
 weight:..... 2,37 kg

content: 1 plastic box, 45 wooden pieces, 1 colouring and copying pattern

The Nutrition Learning Box is full of materials for educational games incorporating real hands-on experience focused on the promotion of healthy and unhealthy eating. A variety of different items are provided from the Erzi shop assortment plus colouring and copying patterns with food circle and pyramid for teaching children the importance of a well-balanced diet and for comparing eating habits as well as illustrating special nutrition groups.

Contents: 3 green apples, 3 large bananas, 1 bag of potatoes, 3 carrots, 3 small tomatoes, 3 cucumbers, 3 bread rolls, 3 herrings, 3 portions of butter, 3 Tetra Pak cartons of milk, 1 tin of spaghetti, 3 Tetra Pak cartons of apple juice, 3 units of mineral water, 3 units of olive oil, 3 portions of Swiss cheese, 3 eggs, 3 sausages, 1 colouring/copying pattern

Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

3 42493 Learning Box Cutting-up and Meal- preparing

length:..... 42,7 cm width:..... 31,2 cm
height:..... 7,5 cm Ø:.....
weight:..... 2,62 kg

content: 1 plastic box, 30 wooden pieces

The selected contents of the Cutting-up and Meal-preparing Learning Box provides an unusual form of food presentation in a manner suitable for children. Preparing food or meals involves appropriate handling of foodstuffs. Preparing a meal can be illustrated and trained in a practical way aided by sliceable foods along with a wooden knife. In addition, the individual items can be used to improve fine motor skills as well as manual-visual coordination.

Contents: 6 breakfast boards, 6 large knives, 3 sliceable apples, 3 sliceable cucumbers, 3 sliceable cheeses, 3 sliceable salami sausages, 3 sliceable loaves of bread, 3 sliceable eggs

Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

4 42494 Learning Box Tableware and Cutlery

length:..... 42,7 cm width:..... 31,2 cm
height:..... 7,5 cm Ø:.....
weight:..... 1,26 kg

content: 1 plastic box, 42 wooden pieces, 1 colouring and copying pattern

The materials provided in the Tableware and cutlery Learning Box are intended to serve as a basis for educational games focused on setting the table including table manners. A set of tableware and cutlery for 6 persons is a valuable aid to simulating everyday situations and discussing and practising table habits. Apart from teaching rules of behaviour and enhancing motor skills, training is promoted in understanding the relationship of figures and positions. Colouring and copying patterns are instrumental in endorsing these capabilities. In addition, the contents can be used as a bridge linking this subject with that of eating habits and other cultures.

Contents: 6 eggcups, 6 cups, 6 plates, 6 knives, 6 forks, 6 tablespoons, 6 teaspoons, 1 colouring/copying pattern

Warning! Not suitable for children under 36 months. Choking hazard! Contains small parts.

Slackspot Trail

length:..... 135,5 cm width:..... 135,5 cm
height:..... 20,8 cm Ø:
weight:..... 13,9 kg

content: 4 spots, 2 Trail discs, 4 reinforcement tubes,
4 slacklines, Mounting set, Instructions

material: birch plywood, laquered

The Slackspot Trail provides plenty of scope for motion activity. Two adjustable trail discs increase the grade of difficulty when balancing on the belt. Up to four children can exercise on this track.

Slacklining is very challenging and fascinates every age group. Slackspot of Erzi is an innovative indoor balancing system. Children from the age of three are thus already able to learn to balance on a slackline.

The five variants in total of the Slackspot system let up to four children balance at once. The low balancing height of 10 cm provides for „safe“ balancing without help—fall protection is not required. The adjustable belt tension and stopper bases on the bottom are only a few features that characterise the product. Whether used privately, in daycare centres, at physical therapy practices, or in foyers and waiting rooms, Slackspot does not require additional anchoring and can be integrated into many environments. Slackspot supports the motoric development of children, leads to self-assurance in everyday movements, and permits balancing as a team. Slackspot is delivered in a dismantled form and can be assembled using the provided tool without a problem. Suited for children up to 12 years of age or 60 kg.

Registered design.

Lying Eight

length: 51,5 cm width: 20 cm
 height: 1,8 cm Ø:
 weight: 640 g

content: 1 game board, 2 steel balls

material: birch plywood, laquered

Figure of Eight. This is used primarily as a means for promoting concentration as well as for training hand motor skills and touch sensitivity. The interior ball guides impart an additional positive effect to motor exercising skills applied to the arm and shoulder regions and challenges mobility at different levels for both children and adults. The two- and three-dimensional concept evolved by Erzi for this product is clearly illustrated in an exercise booklet supplied with the product. The two steel balls supplied with the product are always within grip as a result of the concealed magnetic ball mounts and can be integrated into this coordination-focused game, either individually or combined. An original Erzi concentration game constructed of coated laminated beech. Sweat- and saliva-proof. Warning! Not suitable for children under 36 months. Choking hazard! Contains small balls.

1

Balancing game Owl

length:..... 29 cm width:..... 29 cm
height:..... 1,8 cm Ø:.....
weight:..... 71 g

content: 1 game board, 2 steel balls

material: birch plywood, coloured printed, laquered
The steel balls can be made to do a major turn and two minor ones before embarking on a miniature slalom course aided by spring action. A real challenge for all owl fanciers regardless of age level.

Magnetic holds mounted in the eyes of the owl cater for secure stowage of the balls.

This balancing game serves to promote concentration and the development of motor skills. Registered design.

Warning! Not suitable for children under 36 months. Choking hazard!
Contains small balls.

45413

2

Balancing game Butterfly

length:..... 29 cm width:..... 29 cm
height:..... 1,8 cm Ø:.....
weight:..... 61 g

content: 1 game board, 2 steel balls

material: birch plywood, coloured printed, laquered
Whizzing through the wings of the butterfly, the two steel balls repeatedly cross their own paths. Slightly differing tracks geared to a special loop arrangement result in this game developing a momentum of its very own.

Magnetic holds fixed to the ends of the two sensors ensures secure stowage of the balls.

This balancing game is useful for fostering powers of concentration as well as for developing motor skills.

Registered design.

Warning! Not suitable for children under 36 months. Choking hazard!
Contains small balls.

3

45414

Balancing game Bee

length:..... 29 cm width:..... 29 cm
 height:..... 1,8 cm Ø:
 weight:..... 62 g

content: 1 game board, 2 steel balls

material: birch plywood, coloured printed, laquered
 After the two steel balls have wound their way around the stripes of the bee, they land in a simple loop before advancing to a more complex loop. Diversity applied to the tracking elements generates excitement right up to the end.

Secure stowage of the balls is catered for by magnetic holds mounted to the ends of the two sensors.

This balancing game serves to develop powers of concentration and motor skills. Registered design.

Warning! Not suitable for children under 36 months. Choking hazard!
 Contains small balls.

4

45415

Balancing game Caterpillar

length:..... 49,5 cm width:..... 19,5 cm
 height:..... 1,8 cm Ø:
 weight:..... 73 g

content: 1 game board, 2 steel balls

material: birch plywood, coloured printed, laquered
 The two steel balls hurtle through the caterpillar at a rapid slalom pace.

Differently designed bends give special impetus to the tracking motion of the balls.

Magnetic holds mounted to the ends of the two sensors caters for secure stowage of the balls.

Yet another balancing game promoting powers of concentration and motor skills. Registered design.

Warning! Not suitable for children under 36 months. Choking hazard!
 Contains small balls.

5

► THE HANDLE ALSO SERVES
AS A BALL MOUNT

1

Trackboard Circle

length: 62 cm width: 47 cm
height: 6 cm Ø:
weight: 2,5 kg

content: 1 game board, 1 bag with 3 wooden balls
material: birch plywood, coloured laquered
Balancing disc with circular track. The ball is moved around the body while a balancing posture is maintained. Registered Design.

Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

46370

2

Trackboard Pipe

length: 62 cm width: 47 cm
height: 6 cm Ø:
weight: 2,25 kg

content: 1 game board, 1 bag with 3 wooden balls
material: birch plywood, coloured laquered
In this balancing game, the circle acts both as the start and finish. After the ball enters the tubular-shaped track, a seesaw movement is necessary which ultimately resolves itself again in the circular track. Registered Design.

Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

46371

3

46372

Trackboard Labyrinth

length: 62 cm width: 47 cm
height: 6 cm Ø: -
weight: 2,25 kg

content: 1 game board, 1 bag with 3 wooden balls
material: birch plywood, coloured laquered

A labyrinth at one's feet. Not every track directs the ball from the outer circle to the inner one. This calls for balancing and coordination skills! Registered Design.
Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

4

46373

Trackboard Satellite

length: 62 cm width: 47 cm
height: 6 cm Ø: -
weight: 2,25 kg

content: 1 game board, 1 bag with 3 wooden balls
material: birch plywood, coloured laquered

The outer circle forms the starting and finishing point. Having gained access to the first satellite, the player is led deeper into the universe. After the final satellite has been orbited, it is necessary to return the whole way back. Registered Design.
Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

5

46374

Trackboard Wire

length: 62 cm width: 47 cm
height: 6 cm Ø: -
weight: 2,25 kg

content: 1 game board, 1 bag with 3 wooden balls
material: birch plywood, coloured laquered

This balancing disc looks more complex than it actually is. Here, a grip hole serves as the starting and finishing point. There is only one track and one turn. No short cuts allowed! Registered Design.
Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

6

46308

Trackboard balls - Basic set

material: beech, laquered; silicone

The Theragriff System supports therapeutic training designed to strengthen the hand and arm muscles, thus improving mobility of the finger joints. The wooden grip unit features finger-grip recesses of varying depth so as to facilitate training of the individual fingers applying different grades of difficulty. A detachable silicone tape can be used with or without the grip unit. Ideal for children with motor deficits or for groups performing manual occupations involving regular finger work. Size grip: 7 x 5,4 x 3,1 cm

Therapy board FLEX

46131

height: 6 cm Ø: 28 cm
weight: 890 g

content: 1 balance board, 2 wobble elements
material: birch plywood, laquered

This Wobble Disc is a veritable multi-talent. The exchangeable wobble components can be used for performing a whole different variety of exercises – twirling round or seesawing, on- or off-centre. Whatever the function, this sports and therapy unit poses a challenge one way or the other. The anti-slip and resilient material on the underside does not require any additional underlay. The balancing board comes in a coated finish and can be cleaned without any trouble at all. Registered Design.

SensoPath

Step-by-step the **SensoPath** product line guides the user through the world of sensory and motor functions. A balancing and wobbling act is the result, combined with a feeling of poise, a comparison of one's own physical abilities and a great deal more. One foot is deliberately placed in front of the other, stimulating a depth-sensory effect to weak feet. Resorting to a variety of different materials, surfaces and motor challenges serves to train bodily perceptions. An adult-sized foot (size 43/9) is taken as a basis, this making the SensoPath product suitable for all age groups. All materials used are sweat- and saliva-proof, and are tested for toxics or harmful substances. SensoPath units are ideal foot trainers for games, sports and therapeutic applications.

► INFO

Setting foot on one of these SensoPath units involves the body in a constant process of alternation between body tension and balance. Similar to a therapeutic wobble board, these seesaw-type foot mounts exercise a positive effect on posture and coordination. The rubber ball under one of the foot mounts prevents slipping, even on smooth floors! Turning the ball upwards enables the SensoPath unit to be used for stretching and invigorating the transversal arch. Use is recommended with shoes, socks or barefoot.

1

44437

SensoPath Balance

length:..... 56 cm width:..... 14 cm
height:..... 3,5 cm Ø:..... -
weight:..... 540 g

SensoPath Profile

length:..... 2,24 cm width:..... 14 cm
 height:..... 3,5 cm Ø:.....
 weight:..... 2 kg

content: 8 feet with 4 different surfaces

material: birch plywood, laquered; beech, coloured laquered; polypropylene

These SensoPath units are highly suitable for perceiving different surface structures. Tactile elements are arranged on the surface differing from one another as regards size, number and material, and designed to respond to sense of touch and tactile perceptions. Use is recommended with or without socks.

Size highest foot: 28 x 14 x 2,26 cm

44434

SensoPath XL

length:..... 2,52 cm width:..... 14 cm
 height:..... 3,5 cm Ø:.....
 weight:..... 2,21 kg

content: 9 feet with different materials and surfaces

material: birch plywood, laquered; beech, coloured laquered; polypropylene; polyamide; aluminium; cork; no-slippering pad

Nine foot mounts revealing different materials and surface structures constitute the broad spectrum of this SensoPath product line. Constantly changing stimuli such as warmth and cold, hard and soft or smooth and rough are sensed and learned. Promotion of balance, sense of touch and tactile perceptions are the main issues involved in this keep-fit trail, the setup of which can be linear, circular or varied. Suitable for all age groups. Use is recommended without socks.

Size highest foot: 28 x 14 x 2,26 cm

Panto-Mimo

Children love to hide and dress up. Panto-Mimo combines these two penchants and provides ample opportunity for children to play. Handicapped or not, youngsters can rely fully on their own senses when joining in the Panto-Mimo game. Panto-Mimo needs no particular instruction. Allowing children to play and move about at their own leisure encourages and challenges self-confidence, sense of balance, orientation skills, concentration and coordination. The super Panto-Mimo is a real challenge especially with two children engaged in interaction with one another.

length:..... 50,6 cm width:..... 12 cm
 height:..... 6,7 cm Ø:..... -
 weight:..... 830 g
 content: 1 wall mount, mounting set
 material: birch, beech, nature
 Wall-mount for holding up to four Erzi balancing boards. The boards can be easily attached and removed.
 No toy! Furnishing!

2

Balancing board River

46380

length:..... 190 cm width:..... 24 cm
 height:..... 8,5 cm Ø:..... -
 weight:..... 7 kg
 material: birch plywood, laquered
 This product challenges and promotes concentration and a whole variety of different motor skills and abilities.
 No toy! Sports goods!

3

Balancing board Branches

46381

length:..... 190 cm width:..... 24 cm
 height:..... 8,5 cm Ø:..... -
 weight:..... 9 kg
 material: birch plywood, nature and coloured laquered
 In designing the branches, full focus has been on NATURE. The spruce branch stubs firmly attached to the balancing board have been left in their natural untreated state and impart that true, unfeigned feeling of wood under the feet. In addition to right-left coordination training, this serves to exercise the medial and lateral arches of the foot.
 No toy! Sports goods!

4

Balancing board Forest-floor

46382

length:..... 190 cm width:..... 24 cm
 height:..... 8,5 cm Ø:..... -
 weight:..... 7 kg
 material: birch plywood, laquered
 This balancing board calls for concentration! 27 differently sized holes are filled with large and small PU-foam balls. Take a wrong step and the ball will fall out of its hole! Involving walking on PU-foam balls, Forest Floor provides an excellent opportunity to exercise safe walking on uneven surfaces. The foam balls are washable.
 27 yellow PU-foam balls (3 sizes)
 No toy! Sports goods!

5

Balancing board Mixed materials

46383

length:..... 190 cm width:..... 24 cm
 height:..... 8,5 cm Ø:..... -
 weight:..... 7 kg
 material: birch plywood, laquered
 What does material science have to do with balancing? The answer lies in five different haptic sensory experiences: smooth or rough, warm or cold, hard or soft, shiny or dull surfaces. The various materials can be explored using the eyes, hands and feet.
 Materials: sandpaper, metal, artificial turf, cork, plastic mirror.
 No toy! Sports goods!

6

Marble, blue

46311

Ø:..... 3,2 cm Gewicht:..... 14 g
 material: beech, coloured laquered
 Warning! Not suitable for children under 36 months. Suffocation hazard!
 Contains small balls.

7

46384

Balancing board Field stones

length:..... 190 cm width:..... 24 cm
height:..... 8,5 cm Ø:.....
weight:..... 9 kg

material: birch plywood, coloured laquered

Here the feet are boldly challenged and exercised as in walking. Rubble stones, small and large, serve to stimulate the right-left gait, thus strengthening the foot and leg muscles.

No toy! Sports goods!

8

46385

Balancing board ZEHner step

length:..... 190 cm width:..... 24 cm
height:..... 8,5 cm Ø:.....
weight:..... 9 kg

material: birch plywood, coloured laquered

How many stones are mounted to this board? 10

number fields each represent a number from 1 to 10.

The exact total, however, is 55 stones. No matter whether just counting or performing simple arithmetic, this balancing board is ideally suitable for children with impaired vision or for blindfold-balancing. The sensory effect on the palm of the hand or underneath the feet is both pleasant and serves to stimulate blood circulation.

No toy! Sports goods!

9

46386

Balancing board Bubble

length:..... 190 cm width:..... 24 cm
height:..... 8,5 cm Ø:.....
weight:..... 6,9 kg

material: birch plywood, laquered

Following the blisters, the feet walk either crossed over or apart. By walking over the flexible blisters, the right-left co-ordination and balance are activated at the same time. If the board is hooked in an angular fashion for example onto wall bars, the blisters can be used as climbing grips (please note the drop height / protection!). A tactile experience for hands and feet!

No toy! Sports goods!

10

46387

Balancing board Senso

length:..... 190 cm width:..... 24 cm
height:..... 8,5 cm Ø:.....
weight:..... 6,5 kg

material: birch plywood, laquered

Regarding sensorial experience, this balancing board will satisfy all requirements. Whether it is used to stand, sit or walk on, the rounded off plastic tips of the Senso-Pads are a test of courage for large and small! The sense of balance and tactile perception are both activated to the same degree.

No toy! Sports goods!

10

46389

Balancing path Nature

weight:..... 45,8 kg

content: 46380 River, 46381 Branches, 46382 Forest-floor, 46383 Mixed materials, 46384 Field stones, 46385 ZEHner step

material: see individual articles

The 6 different balancing boards encourage at the same time balance and motility train perception and body awareness.

No toy! Sports goods!

6 Balancing Boards
as a SAVER SET

10

Exercising
Body & Brain

The **Rocky Rocker** is a natural product bristling with love for detail and challenging the child's exercising capabilities in many different ways - a genuine Erzi quality product! The Rocky Rocker is used for play and sports. It can be employed as a tilt in the seating, kneeling or standing position. When used in the seating or kneeling posture, the tubes serve to provide a secure hold.

1

46339

Rocky Rocker

length:..... 42 cm width:..... 28,5 cm
 height:..... 17 cm Ø:..... -
 weight:..... 1,8 kg

material: birch plywood, laquered

The Rocky Rocker is a game and sport product which can be used for young and old, as single product or as connecting point between two Erzi balancing boards. It corresponds to all current security standards and guidelines and offers nevertheless a design without any screws or nails. The Rocky Rocker is a natural product with love to the details and varied challenges to the exercise capacities of the children. The product can be used as stool or sitting or standing balancing seesaw. The seesaw demands from the user teamwork, balance, consideration, patience and coordination.

Rocky Rocker is a playing and sports device that can be used as a stool, a seat and a rock in either kneeling or standing position. In the sitting and kneeling position, the user may hold onto the rods.

When placing an Erzi balancing board in the middle of Rocky rocker, it becomes a rocker for two children with numerous game variations (such as marble track). The rocker is great for walking (not running) over it. Placing a balancing board with one end on the Rocky Rocker and hooking this in forms a fixed ramp catering for a variety of different applications.

In most cases, however, Rocky Rocker can be used as a connection of two Erzi balancing boards. The interaction of the connected boards requires and encourages coordination and concentration skills.

In this variant, both Erzi balancing boards should be suspended by the appropriate rods.

Warning! Not suitable for children under 36 months. Choking hazard! Contains small parts.

- + two levels of difficulty
- + great for parcours
- + for sports and therapy

2

46338

Balance course Water

weight: 28 kg

content: 6 pieces

Thematic parcours appeal to the imagination of children and enable them to quickly get accustomed to a new surrounding. The WATER balancing course features a blue colour. This parcours is also like being in and on water. You can swing and wobble, go up and down, and things can even get somewhat slippery! Each Erzi element of this parcours is individual and varied so that this parcours can be used differently with regard to its structure, theme and degree of difficulty. The parcours is particularly suitable for use in sports and therapy, either individually or in a group. Sense of balance, conquering fear of heights, tactile perception and co-ordination are only some of the factors that are supported here and that can be playfully combined with the help of your imagination. The articles can also be purchased individually.

Contents: 44431 SensoPath Motility, Balancing boards 46386 Bubble, 46387 Senso and 46380 River, 46339 Rocky Rocker, 44571 Trapeze gymnastic trestle 57

Wave slide

length:..... 205 cm width:..... 58 cm
 height:..... 18 cm Ø:.....
 weight:..... 18,1 kg

material: birch plywood, laquered; polyethylen

If there ever was an element of sports equipment that stimulates its use, then it has to be the Erzi wave slide! Children find it hard to resist this slide! The wave slide is firmly embedded on turning foam rolls and it can be used while lying on the stomach or on the back, forwards or backwards, kneeling or seated. Suspended in a trapezoid vaulting horse or wall bars (please note the drop height / protection), this piece of equipment knows no limits to the range of movements possible when using it for play or therapy. Besides developing reaction speed and tactile perception, the wave slide is also suitable for conquering the fear of heights. The material of the foam rolls is used in swimming which means that it is very robust and washable. The rolls can be exchanged. Load bearing capacity: 100kg Registered design.

Roller slide

length:..... 205 cm width:..... 58 cm
 height:..... 10,5 cm Ø:.....
 weight:..... 13,5 kg

material: birch plywood, laquered; polyethylen

This classic within the Erzi roller-slide range. Simple in design, it provides youngsters with adequate space and freedom for discovering their own skills. Scope galore for individual mobility! Akin to all Erzi roller slides, this piece of equipment can be hooked into a wall-bar unit at both ends or attached to a trapeze trestle. Ideal for training motor skills while combining fun with useful exercise. Registered Design.

44465

Roller slide S

length:..... 115 cm width:..... 58 cm
 height:..... 10,5 cm Ø:.....
 weight:..... 7,8 kg

material: birch plywood, laquered; polyethylen

This is the shortest version in the Erzi roller-slide line. Comprising a total of 17 rollers, the slide can be hooked into a wall-bar unit or attached to a trapeze trestle. Left to lie on the floor, it provides plenty of scope for bodily exercise. The side pieces are constructed of coated plywood. The rollers themselves are made of sturdy foam material, easily kept clean and replaceable. Note – This is not bulk waste material! Registered Design.

Balancing course Sportbox

weight: 56,86 kg

content: 6 pieces

One small Sportbox, one large Sportbox and a padded section; together with an Erzi roller slide and two Erzi balancing boards, this combines all Sportbox facilities for creating a keep-fit trail. A circular or star-shaped formation can be set up, enhanced by a whole number of different combinations using the various items of sports equipment.

Contents: 44467 Sportbox, 44469 Sportbox Top, 44468 Sportbox S, 46381 Balancing board Branches, 46382 Balancing board Forest-floor, 44464 Rollerslide
No toy! Sports goods!

Sportbox

length:..... 76,5 cm width:..... 41,5 cm
 height:..... 42 cm Ø:.....
 weight:..... 13 kg
 content: 1 Sportbox, 1 scooter board, 1 set of screws,
 1 socket screw key

material: birch plywood, coloured laquered

The Sportbox is a genuine multi-talent in the sports or fitness room, posing both a climbing and balancing challenge. With openings on all sides, the Sportbox can be combined with Erzi balancing boards resulting in a theme-related and highly stimulating training track. No means of fall protection is necessary. Mounted on floor-protecting castors for quiet movement, the gaily-coloured roller board can be used as a protective cover or for transporting the Sportbox. Delivery in disassembled space-saving state.

the clever slack system for children

The Erzi recommendation for young experts:

Slacklining is very challenging and fascinates every age group. Slackspot of Erzi is an innovative indoor balancing system. Children from the age of three are thus already able to learn to balance on a slackline.

Erzi EXPLAINS

For more informations see:

www.erzi.de/downloads

Slackspot - a genuine Erzi quality product

The five variants in total of the Slackspot system let up to four children balance at once. The low balancing height of 10 cm provides for „safe“ balancing without help—fall protection is not required. The adjustable belt tension and stopper bases on the bottom are only a few features that characterise the product. Whether used privately, in daycare centres, at physical therapy practices, or in foyers and waiting rooms, Slackspot does not require additional anchoring and can be integrated into many environments. Slackspot supports the motoric development of children, leads to self-assurance in everyday movements, and permits balancing as a team. Slackspot is delivered in a dismantled form and can be assembled using the provided tool without a problem. Suited for children up to 12 years of age or 60 kg.

► INFO

The use of Slackspot as a training and therapeutic device can support strengthening, sensomotoric training, the improvement of coordination and balance, or posture training.

1

46400

Slackspot Basic

length:..... 135,5 cm width:..... 18 cm
 height:..... 11 cm Ø:.....
 weight:..... 5,045 kg

content: 2 spots, 1 reinforcement tube, 1 slackline,
 Mounting set, Instructions

material: birch plywood, laquered

Slackspot Basic is the core of the system. Consisting of two spots and a slackline, the system is simplicity itself and the starting point for an exciting slackline course.

European patent application

Slackspot Square

length:..... 135,5 cm width:..... 135,5 cm
 height:..... 11 cm Ø:.....
 weight:..... 12,98 kg

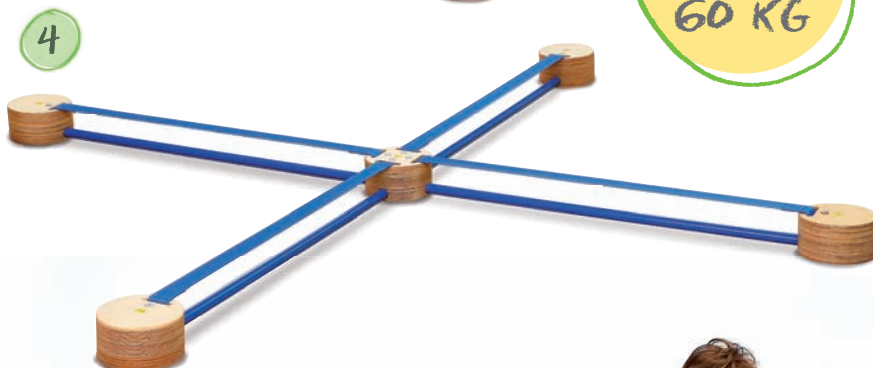

content: 4 spots, 4 reinforcement tubes, 4 slacklines,
 Mounting set, Instructions

material: birch plywood, laquered

Four identical spots form a roundabout course in the form of a square. Up to four children can balance on this course and prove their agility.

European patent application

No toy! Sports goods!

4

46403

Slackspot Cross

length:..... 253 cm width:..... 253 cm
 height:..... 11 cm Ø:.....
 weight:..... 14,8 kg

content: 5 spots, 4 reinforcement tubes, 4 slacklines,
 Mounting set, Instructions

material: birch plywood, laquered

Slackspot Cross is the most complex type of slackline. Five spots form a cross and allow numerous types of play and movement. Four slacklines extend away from the central cross spot.

European patent application

51212

Erzi play cottage

length:..... 150 cm width:..... 105,8 cm
height:..... 149 cm Ø:..... -
weight:..... 44,4 kg
content: 13 wooden parts, 1 textile awning, 1 set of screws, 1 Allen key
material: birch plywood, coloured laminated, laquered
Sturdily designed, spacious and versatile. Those are the features distinguishing the Erzi play cottage.
Playful design contours and discreet colour scheming provide perfect conditions for a whole variety of role games. Also ideal for improvised games, theatrical performances and relaxation of the senses. The dimensions make it suitable for use by several children at a time. The different apertures (door, window, tunnel) serve to stimulate activity and cater for variety galore. Abundance of repositories and attachment facilities for accessories. A textile awning brings a splash of colour to the whole and adds realistically to the charm of this Erzi play cottage.

The Baby path

on floors and walls for little explorers

1

2

3

1

51145

Baby path Track

length: 57,5 cm width: 57,5 cm
 height: 10,5 cm Ø:
 weight: 3,3 kg
 material: birch, beech, coloured laquered
 3 different tracks
 Registered design.

2

51121

Baby path Play of colours

length: 57,5 cm width: 57,5 cm
 height: 9,5 cm Ø:
 weight: 3,2 kg
 material: birch, beech, coloured laquered
 The Baby path Play of colours can be used on both sides. The colour bars displaying the colour circle can be turned by 360° which adds movement to the toy. The Baby path Play of colours is therefore both a kinetic and a visual challenge. It is ideally suited for several children.

3

51126

Baby path Mirror duo

length: 57,5 cm width: 57,5 cm
 height: 9,5 cm Ø:
 weight: 2,9 kg
 material: birch plywood, laquered; polystyrene
 One concave and one convex mirror respectively stimulate a player's sense of perception in a variety of ways. The optical illusions they create provide lots of fun.

4

51119

Baby path Guitar

length: 57,5 cm width: 57,5 cm
 height: 9,5 cm Ø:
 weight: 3,2 kg
 material: birch plywood, laquered; perlon
 Here the world's smallest musicians can produce pleasant sounds using strings of different lengths. By plucking a string with a finger or tickling one's hand with a string, the perception of sound and touch are stimulated.

5

51123

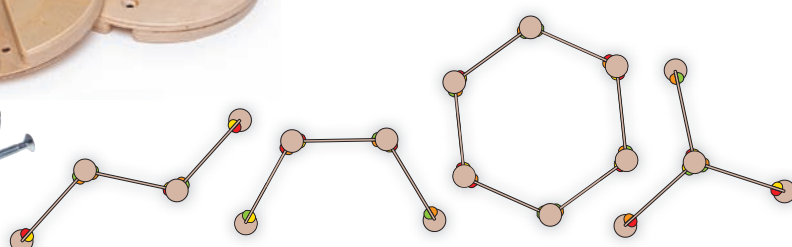

Assembly discs baby path

height: 3,6 cm Ø: 16 cm
 weight: 500 g
 content: 2 discs
 material: birch plywood, laquered
 With these assembly discs the several elements of the baby path can be used as partition. Several children can use the baby path from both sides. At least two elements need to be combined.

► INFO

For safe use on floors, at least two Baby Path units need to be mounted together.

5

6

51143

Baby path Mirror

length:.....57,5 cm width:.....57,5 cm
 height:.....9,5 cm Ø:-
 weight:.....3,3 kg
 material: birch plywood, laquered; polystyrene
 with acrylic mirror
 Registered design.

7

51144

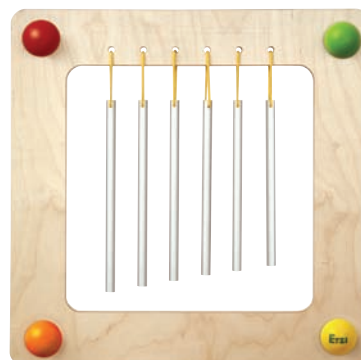

Baby path Tinkle

length:.....57,5 cm width:.....57,5 cm
 height:.....9,5 cm Ø:-
 weight:.....3,3 kg
 material: birch plywood, laquered; aluminium
 Smallest children show a significant response by listening to overtone sounds like chimes, triangle or little cymbals. The bars of the play and sound element have different lengths and support the generation of brilliant sound stimulation. The affordance is positively given by the easy handling of the sound element.
 Registered design.

6

7

8

51146

Baby path Colours

length:.....57,5 cm width:.....57,5 cm
 height:.....9,5 cm Ø:-
 weight:.....3,3 kg
 material: birch plywood, laquered; acryl
 colourful acrylic glass panes
 Registered design.

8

9

51115

Baby box Concerto

length:.....77 cm width:.....62 cm
 height:.....34 cm Ø:-
 weight:.....13,5 kg
 content: 4 boards, 8 assembly discs, ball set (4pieces)
 material: see individual articles
 The Babybox Concerto is a real sound box. The sound of the sound pipes, the humming of the guitar strings and the swooshing noise of the balls in the mirror bowl provide a real concert experience both inside and outside the box. Children can listen to these sounds while relaxing simply by lying down in the box and smiling into the convex mirror above. Included in delivery: baby path Tinkle, baby path Guitar, baby path Mirror duo, baby path Basic, baby box assembly disc, ball set 4 pieces (Ø 6cm)

9

10

51116

Baby box assembly discs

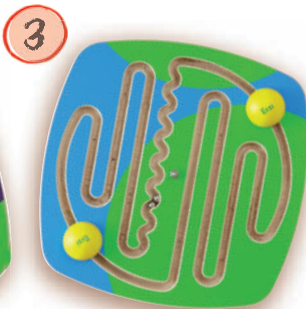

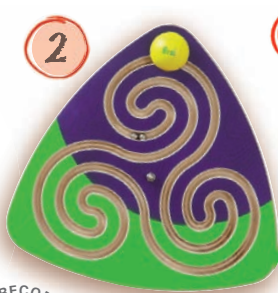

length:.....14 cm width:.....14 cm
 height:.....16,5 cm Ø:-
 weight:.....1,44 kg
 content: 8 assembly discs, mounting set
 material: birch plywood, laquered
 A box can be put together individually using eight connecting discs. The height of the Babybox is ideal for playing and for activities either in a sitting or an upright position. However, it doesn't have to be only used as a babybox – the babybox system can also be used to make a tunnel or a crawling box.

10

**► INFO**

A place for hiding and for retreating as well as a large variety of educationally valuable play elements – that is what the Babybox is. This Erzi system integrates various Baby path elements into a box.

► INFO

Erzi ball racecourses always prove an eye-opener, no matter whether mounted to a wall of a group activity area, in a waiting room or a foyer.

1

Wallgame Tricky

46503

height: 7 cm Ø: 40 cm
weight: 2 kg

content: 1 game board, wall bracket, 2 steel balls
material: MDF, coloured laquered

The aim of this wall toy is to allow the balls to roll across the intersection. If the board is turned too slowly, the balls will remain on the outer track.

Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

2

Wallgame Curly

46504

length: 40,5 cm width: 39 cm
height: 7 cm Ø: -
weight: 2 kg

content: 1 game board, wall bracket, 2 steel balls
material: MDF, coloured laquered

Both steel balls will only roll down the complete track if the board is vigorously shaken back and forth. The bends look easier than they actually are.

Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

3

Wallgame Clickclack

46505

length: 40 cm width: 40 cm
height: 7 cm Ø: -
weight: 2 kg

content: 1 game board, wall bracket, 2 steel balls
material: MDF, coloured laquered

The acoustic effect makes this toy unique. Both steel balls clatter across the whole board.

Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

4

City ball racecourse

51005

length: 47,6 cm width: 6,5 cm
height: 73,8 cm Ø: -
weight: 5,98 kg

content: 1 gameboard with 3 balls, mounting set

material: birch plywood, coloured printed, laquered
Three coloured wooden balls wait to embark on a tour of the city. Starting on the tips of the houses they zoom past colourful facades and cars, and continue on their way down to the park. The balls always remain on track. The Erzi baseplate (Art. No. 51004) enables the ball racecourse to be freely installed in any room. Registered design.

5

Zoo ball racecourse

51006

length: 47,6 cm width: 6,5 cm
height: 73,8 cm Ø: -
weight: 5,98 kg

content: 1 gameboard with 3 balls, mounting set

material: birch plywood, coloured printed, laquered
Three coloured wooden balls wait to embark on a tour of the zoo. Passing wild animals and dense bushes, they experience many an adventure. The balls always remain on track. The Erzi baseplate (Art. No. 51004) enables the ball racecourse to be freely installed in any room. Registered design.

6

Baseplate for ball racecourse

51004

height: 1,8 cm Ø: 48,6 cm
weight: 3 kg

content: 1 base board, mounting set
material: birch plywood, laquered

Ideal complementary mount for installing Erzi ball racecourses City (Art. No. 51005) und Zoo (Art. No. 51006) in rooms. Registered design.

without decoration

1

50001

Convertible chair

length:..... 34 cm width:..... 34 cm
height:..... 34 cm Ø:..... -
weight:..... 4,2 kg

material: birch plywood, laquered

The convertible chair may be adjusted to seat heights of 16cm and 20cm or used as a table or 34cm stool. Stacked one above the other, several chairs can be used as shelf.

No toy! Furnishing!

2

50005

Convertible bench

length:..... 69 cm width:..... 34 cm
height:..... 34 cm Ø:..... -
weight:..... 7,15 kg

material: birch plywood, laquered

As a bench, table or shelf – this play furniture is integrating itself into the child's everyday playing environment. A complement to the Erzi multi-functional chair, the bench can be set up to assume heights of 16, 20 and 34 cm.

No toy! Furnishing!

3

50004

Convertible Set

weight:..... 24 kg

content: 4 Convertible chairs (50001) , 1 Convertible bench (50005)

material: see individual articles

No toy! Furnishing!

4

50049

Tidy-up sheet

height:..... 0,5 cm Ø:..... 150 cm
weight:..... 400 g

material: polyester

Inside drawstring, highly robust, stain-resistant.

Now, tidying up is easy and fun for everyone!

On this mat children may play, built, paint and romp about all day, and when it's time to tidy up, just pull the four loops and turn the mat into a bag. Even as play mat for babies outside, protecting against crawling insects and dirt.

No toy! Furnishing!

► CIRCELINO NUMERAL CARPETS on page 148

Learning at ease – with nursery carpets and carpet games

The Erzi recommendation for young explorers:

For pre-schoolers it is an advantage to know something about figures. This trains the ability to count, at least up to ten or perhaps even a little beyond.

In a large group it is a source of satisfaction to count objects in chorus. The Erzi numbering carpets are first arranged in proper order and then walked over as a group. Excitement builds up when stepping backwards, an added feature that heightens the fun of the game!

1

51171

Circelino Numeral Carpets

height: 12 cm Ø: 40 cm

weight: 2,73 kg

content: 12 pieces

material: polyamide, felt

A tremendous amount of variety can be obtained from Erzi Numeral Carpets which embody high learning potential and educational value. The numerals 1 to 12 are ideal for learning clock times and months. Simple practice in mastering the order of the figures caters for loads of fun among youngsters, especially in an extended group. Like all Erzi nursery carpets, these small sitting and learning carpets are hard-wearing. Additional felting on the underside prevents cold from getting in. They are tested in accordance with all statutory (EU) requirements

2

51169

Carpet Circelino 180

height:..... 1 cm Ø:..... 180 cm

weight:..... 5,32 kg

material: polyamide, felt

Colourful playing carpet for the morning circle at your day-care centre, games involving movement, building games, and puzzles. Ideally suited for small rooms, napping areas, and childminders; for small groups of up to six children.

3

51150

Carpet Circelino 300

height:..... 1 cm Ø:..... 300 cm

weight:..... 14 kg

material: polyamide, felt

Huge colourful playing carpet for morning circles, movement games.

Up to 12 children may find their place on the colourfully striped circle. This way every day may start with fun. Many game variants are possible, from circle games up to reading.

4

51170

Carpet Cicelino 400

height:..... 1 cm Ø:..... 400 cm

weight:..... 26,75 kg

material: polyamide, felt

This Cicelino carpet is the largest Erzi playing carpet.

For groups up to 20 children, it can be used for the morning circle at your daycare centre, games involving movement, building games, and puzzles.

FOR SMALL
& LARGE
GROUPS

5

1

50532

Dream cave

length:..... 192 cm width:..... 160 cm
height:..... 127 cm Ø:..... -
weight:..... 35 kg

material: birch plywood, laquered

The cave can be customized to calm down or to stimulate the experience of senses. The dream cave consists of bright arcs and side panels of birch plywood, threaded connections made from solid beechwood, 2 ashwood rods and 8 naturally coloured ropes.

No toy! Furnishing!

2

50533

Curtains for dream cave

length:..... 310 cm width:..... 145 cm
height:..... - Ø:..... -
weight:..... 1,5 kg

content: 5 pieces

material: cotton

Flexible design elements are the fabric roof and curtains. This way an open, half-open or closed dream cave opens up a width variety of playing options.

No toy! Decoration!

3

44220

Set of sounding bowls

weight:..... 1,8 kg

content: 3 sound bowls in various sizes (approx. Ø17cm/750g, Ø13/500g and Ø11cm/350g) and 3 different beaters (L: 15cm, 20cm, 30cm)

material: brass

When they are struck or rubbed the sound bowls produce sounds. The rubbing movements are made on the edge of the bowl with the help of a wooden beater. A penetrating sound is produced with a long and even rubbing movement either clockwise or counter clockwise. All 3 beaters can be used for striking on the side (top edge). Very deep or high sounds are made depending on the beater and the size of the sound bowl.

No toy! Sports goods!

4

51200

Mirror cube playcube

length:..... 105 cm width:..... 105 cm
height:..... 92 cm Ø:..... -
weight:..... 54 kg

material: birch plywood, laquered

The mirrors of the playcube reflect everything several times, thus allowing children to discover and strengthen their sense of self with fun.

At the same time it ideally complements retiring areas in the group room.

Light nets and towels may be attached to easily decorate the walls or to cover the entrance.

No toy! Furnishing!

5

50513

Cushions, assorted colours

length:..... 80 cm width:..... 50 cm
height:..... 8 cm Ø:..... -
weight:..... 930 g

content: 10 cushions (à 26 x 26 cm), sorted colours

material: cotton

These cushions are ideally suited for petting, cuddling and wild pillow fights.

No toy! Decoration!

6

52011

Willow hut

length:.....115 cm width:.....75 cm
 height:.....125 cm Ø:.....-
 weight:.....9,7 kg

content: 10 pieces sorted colours

material: willow

Willow huts are places of retreat, great hiding places and inspire imaginative role play. They fit beautifully into the natural environment, may be covered with climbing plants, „smeared“ with loam or colourfully painted. The willow cottage has a wheelarch doorway, three little windows and an opening in the roof.
