Our **patented Natural Flex™ Soothers** feature a naturally shaped baglet that flexes, stretches and moves like a mother's nipple. This unique flexing movement helps to promote the natural sucking action of your breastfeeding baby.

The entire outer portion is made of soft silicone, which is extra gentle on your baby's mouth and delicate skin.

Natural Flex™ Cherry Soother

- The only soother that stretches and moves like a mother's nipple during feeding
- Ideal soother to use during breastfeeding, stimulate's the suction reflex
- Nubs on the facing of the rounded shield allow air circulation, and reduce the risk of skin irritation to maximum
- Supersafe because of unique all silicone in one piece construction
- With hole to attach pacifier
- Comes in 3 prints

BOTTLES

The Nûby™ nipples are inspired by the shape, texture and natural flexibility of mum's breast, encouraging babies to latch on more easily, creating a less stressful and happier feeding time for mum and baby.

They're made of 100% medical silicone, Advanced anti-colic valves in the nipple allow air to flow back into the bottle for a continuous feed and contented baby.

Why SILICONE is a great choice?

1. Hygienic and hypoallergenic
2. Eco-friendly:
100% recyclable and non-toxic
3. Extremely stable as it can handle temperature from -55°C to 260°C
4. Food-safe material
5. No taste/odour

A young child with dark hair is shown from the chest up, holding a sippy cup to their mouth. The cup has a green handle and a pink body with a spiral design. The child is wearing a light-colored long-sleeved shirt with a heart graphic and the text 'LOVE & NAPS'. The background is a blue pattern of water droplets.

CUPS

Nº1 WORLDWIDE
CUP BRAND*

*Based partly on industry data

INTRODUCTION

Here at Nûby™ we have created and developed a range of No-Spill™ cups that promote natural healthy drinking through 5 stages. The patented system encourages child to adopt a natural drinking action that helps to naturally develop their soft palate and is kind on new teeth. Nûby™'s silicone valves, spouts & straws are completely clear and easy to clean. We have received numerous awards in many countries with our patented cups.

6⁺m

These first No-Spill™ cups with a soft spout provide comfortable drinking.

Perfect for curious babies

9⁺m

These trainer cups help towards independent drinking.

Perfect for little explorers

12⁺m

These active cups were especially designed to ease on-the-go and upright drinking.

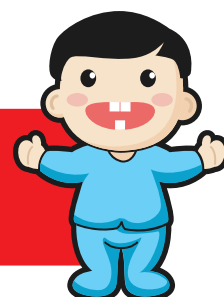

Perfect for active toddlers

18⁺m

These cups are developed to encourage the transition into open cup drinking.

Perfect for independent drinkers

SIMPLE KIND OF CUP

"When it comes to things like sippy cups, I am a no-frills type of mom. I want one with as few parts as possible, that doesn't leak and can take a beating. Oh, and I'd like it to be reasonably priced too! I'm not asking too much, right?! The Nûby™ No-Spill™ cups are just that. With only three parts, it's simple enough."

- Nûby™ Mom Jessica

BIBS

Teething and drooling

Parents will love this combination of teether and bib. Drooling increases when new teeth are emerging. This small soft bib is the perfect dribbler catcher and keeps a teether in easy reach of baby to provide soothing relief.
