CARE DEVELOP GROW

WE CREATE PRODUCTS TO IMPROVE THE LIVES OF CHILDREN WORLDWIDE. WE FOCUS ON THE ASPECTS OF A CHILD'S JOURNEY THAT REALLY MATTER; CARE, DEVELOPMENT AND GROWTH.

Kit for Kids® is an official member of the British Education Suppliers Association (BESA). BESA is a trade association who work on behalf of their members to support UK-based companies that supply goods and services to the education sector. This includes lobbying Government and decision-makers on policy issues, providing information, training and advice and provide marketing opportunities and savings for BESA members in the UK and internationally.

Kit for Kids® was awarded a Certificate for BS EN ISO 9001:2008 Total Quality Management. This is an internationally recognised certificate which is awarded to organisations whose quality management systems meet certain strict requirements. The standard requires us to follow strict procedures for all our processes to enhance customer satisfaction by meeting customer requirements.

KIT FOR KIDS® SUPPORTS RAINBOWS

Kit for Kids®

Any infringement of our intellectual property rights will be vigorously pursued. We reserve the right to alter designs and specifications (including colours and materials) if and when such changes are unavoidable.

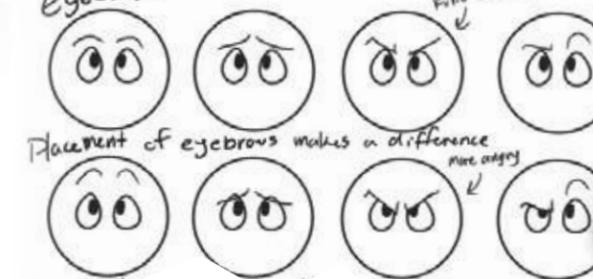

OUR PARTNERSHIP WITH YOU...

How can we add to our partnership? It's not about selling product; it's about delivering excellence to the end user. Excellence in this respect means the proposition of value for money, choice and great service.

We play our part by communicating this advocacy of excellence through marketing support. This increases the value proposition, increases the margin for you, our customer, and allows the purchaser to make an informed decision which is not based on price alone.

Eyes
Eyebrows

TRADE SUPPORT AREA

Our obsession with excellence extends to the way we communicate with you, the customer. We have made this process effective and simple.

CATALOGUE MARKETING SUPPORT

Our design team will work with you to design catalogue pages, spread layouts and branding. This maximises catalogue space and enhances your customer proposition.

PRODUCT DEVELOPMENT

Working in partnership to develop and bring your product ideas to life.

BRITISH DESIGN

All products are designed in house by our talented team of designers.

Qualitative Research & Product Development

QFD

We have spent a lot of time over the last year conducting in-depth qualitative research with a number of teachers, schools and nurseries with the sole aim to ensure our products are fit for purpose.

We have employed the use of the **Quality Function Deployment** technique (QFD) to give a structured approach to defining customer needs and requirements. The process ensures our product development plan focuses on new and updated products that specifically meet those needs identified through the research stage.

This comprehensive research was conducted alongside a review of the current **Early Years Foundation Stage (EYFS)** which has enabled us to map out and categorise a number of our products to make it easier for teaching staff to see where our products support the key areas of learning and development. A table is included in the introduction of each category for quick reference and icons appear throughout our catalogue to highlight the relevant products.

EARLY YEARS FOUNDATION STAGE

PSE DEVELOPMENT (Personal, Social and Emotional)

- Making Relationships
- Self-Confidence and Self-Awareness
- Managing feelings and behaviour

PHYSICAL DEVELOPMENT

- Moving and handling
- Health and self-care

EXPRESSIVE ARTS & DESIGN

- Exploring and using media and materials
- Being imaginative

UNDERSTANDING THE WORLD

- People and communities
- The world
- Technology

MATHEMATICS

- Numbers
- Shape, Space and measure

LITERACY

- Reading
- Writing

COMMUNICATION & LANGUAGE

- Listening and attention
- Understanding
- Speaking

Our research has resulted in the creation of a **Kit for Kids Community**, working in partnership with a number of schools and nurseries who now benefit from access to new and exciting products in return for their honest feedback and ideas.

All of this helps us to support you, our customers, to ensure all of our products will not only be of the highest quality but also meet the needs and requirements of the end user.

CARPETS

OUR EXTENSIVE RANGE OF CARPETS IS DESIGNED TO SUIT ALL CLASSROOM SIZES AND LEARNING ENVIRONMENTS, FROM DECORATIVE AND SHAPED CARPETS TO THEMED PLACEMENT CARPETS PERFECT FOR GROUP ACTIVITIES AND READING.

Carpets

Our carpets are designed not only to be of the highest quality required for a busy classroom but also fit for purpose, to support teaching staff whilst providing opportunities for children to learn, be creative and enjoy the process along the way.

Our carpet range can be divided into a number of subcategories, all of which focus on a particular area of learning as their primary purpose but which can be used for multiple activities to provide a valuable cross functional resource in any nursery or classroom.

01 Placement Carpets

Our placement carpets include multiple options to suit a particular classroom size or space. These are themed from basic colours and shapes to our Back to Nature™ or Town and Country™ designs which can be used for investigating and understanding the world through group discussion. These carpets are suitable for both group or quiet reading activities.

03 Themed Carpets

We have carpets which support mathematics and literacy, as well as those that tackle key topics such as understanding the world, including exploring different cultures, communities and languages, and managing emotions and behaviour. Our literacy carpets are linked to the National Curriculum and use Sassoon Infant font to make letters easily identifiable.

02 Carpet Piles

All of our indoor carpets have an anti-slip Dura-Latex™ backing making them suitable for any indoor surface. There are two grades of pile in the carpet range: Heavy Duty Tuf-Pile™ and Durable Tuf-Loop™.

All grades are hardwearing Nylon piles. The Durable Tuf-Loop™ is lighter and shorter, ideal for walkways and receptions, whereas the Heavy Duty Tuf-Pile™ is thick and soft textured and is recommended for classrooms, reading and play areas.

Our carpets are also eco-friendly and 100% recyclable.

04 Cleaning and Care Guide

Carpets should be spot cleaned with a damp cloth, but do not rub. Never use soap, bleach, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles. If in doubt, always seek professional advice.

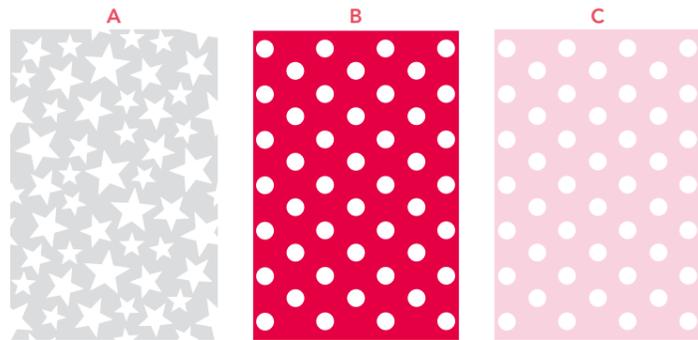

Avoid contact with sharp or abrasive objects and cleaning machinery, i.e. flooring buffers and vacuum cleaners with beater bars. We suggest moving carpets when buffing floors to avoid contact.

When vacuuming, adjust the height of the beater bar to lightly agitate the carpet pile but not cause the motor of the vacuum to slow. Do not vacuum over binding and edging.

NURSERY RUGS

OUTDOOR PLAY | KIT FOR KIDS

SOFT FURNITURE

A QUALITY RANGE OF SOFT SEATING AND FLOOR CUSHIONS, BOTH IN PLAIN COLOURS AND DISTINCTIVE THEMED PRINTS TO SUIT A VARIETY OF LEARNING ENVIRONMENTS.

Soft Furniture

We offer a number of distinctive products in our soft furniture range, including themed printed products such as our Back to Nature™ and Natura™ ranges of soft seating. We also offer plush fabric soft play cushions and a range of themed floor cushions to support teaching staff with topics such as understanding the world or managing feelings and behaviour.

01 Soft Seating

Kit for Kids offer a wide range of innovative seating options, both plain colours and printed themes. Our popular modular ranges allow for items to be bought individually and put together to suit the space available, either in a classroom or library.

The stylish OppoSeat™ comes as a back-to-back seating set which can stand alone or be used to form multiple seating options. It has easy to connect Velcro® locations that also allow for the two seats to be split into a seat and pouf depending on the space or activity.

Our printed products are of digital high definition quality using the latest technology to enhance the graphic detail and colours. We have our own in-house digital printer so that we can ensure the quality and colour match across a range.

All of our soft seating is ergonomically designed at ideal popliteal heights and with age specific foam densities to ensure a child's comfort. All

products also include a wear resistant non-slip base and our vinyl is backed with a reinforced mesh to resist tearing or fraying after heavy daily use.

As you would expect from Kit for Kids, all of our soft furniture complies with the latest European standards to ensure a safe and long lasting product, best suited for busy childcare environments. This includes closed-stitch sealed and non-removable covers to make sure children cannot gain access to the foam within.

02 Floor Cushions

We offer an extensive range of vinyl floor cushions. Our plain coloured story cushions and giant sagbags are great for reading activities.

We also provide specially designed floor cushions that tackle key topics such as managing feelings and behaviour, our Emotions™ range, and understanding the world through our multi-cultural Children of the World™ range. These are excellent cross-functional products that can be used for smaller group activities and reading as well as for leading interactive group discussions around these topics.

03 Plush Fabric Soft Play

Plush soft play items are great for introducing children to different tactile fabrics as well as providing a soft and comforting place to rest in the nursery environment. Our imaginative range of giant floor cushions and snuggle mats are all handmade with detailed appliques and embroidery to add interest to the designs.

The fabrics are designed to be hardwearing and fade resistant, with reinforced seams for daily use, and with washable covers to maintain levels of hygiene.

It is essential that all products with removable covers have sealed inner covers so that the foam or fibre core is not accessible to the child. Safety is of the utmost importance to us so our products not only have safety specified interliners but also have the cover zip puller removed so that only an adult can open the cover for washing.

OPPOSEAT™

A stylish, stand-alone range of furniture with multiple seating options. Transform your two seats into a seat and a pouf with easy-connect Velcro® locations.

SOFT PLAY

SOFT PLAY | KIT FOR KIDS

TABLES & CHAIRS

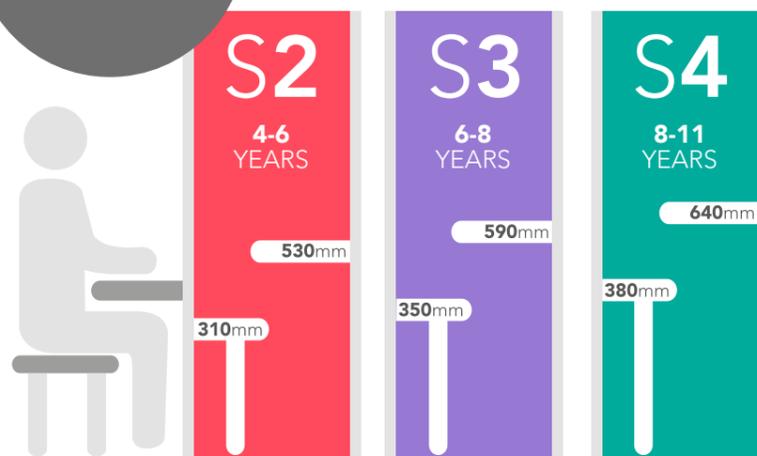

A FUNCTIONAL AND QUALITY RANGE OF WOODEN TABLES AND CHAIRS, DESIGNED FOR THE RIGOURS OF DAILY USE IN A BUSY CLASSROOM ENVIRONMENT.

Tables & Chairs

Kit for Kids tables and chairs offer exceptional build quality ensuring our products are both strong and stable. Safety is of the utmost importance in the learning environment which is why all of our ranges are tested for endurance and meet BSEN1729-2:2012 Furniture – Chairs and Tables for Educational Institutions.

AGE RECOMMENDATION FOR CLASSROOM FURNITURE

EUROPEAN STANDARDS FOR TABLES & CHAIRS

EN1729 PART 1 FUNCTIONAL DIMENSIONS

All of Kit for Kids® tables and chairs are manufactured to the highest standards. Ergonomic design depends on having the right furniture height for the child at the right age. We have adopted the European standard EN1729 Part 1 Functional Dimensions.

Our Tuf-Class™ and Tuf-Top™ wooden tables and chairs are made to the size marks S2 to S4 for correct posture and meet the recommended popliteal chair and table heights.

01 Tables

We use high quality laminates and lacquered finishing paints, mounted on a dense MDF core to ensure a quality finish and making our table tops resistant to scratching and colour fading. All natural hardwood and painted plywood is varnish protected to aid longevity.

The wooden leg tables are reinforced with a supportive under-frame which is both glued and screwed to the table top, whilst our larger Tuf-Top™ tables have a Tri-Lock™ reinforced leg to give additional strength.

Our tables are counterbalanced meaning they have a thick laminate base panel which adds strength and prevents warping over time.

02 Chairs

Our chairs are delivered fully assembled for good reason as in daily use leg and bolt fixings can sometimes wear loose. All of our joints are reinforced by screws, wooden dowels and glue to ensure their long-term strength.

Our chairs have a crossbar between the front legs to reinforce the chair frame.

As these products are both heavy and bulky all of our furniture is delivered within a double carton which is foam lined and drop tested to make sure your products arrive in perfect condition.

We also pride ourselves on ensuring that all products manufactured from hardwood are selected from sustainable forests.

TUF CLASS™ CLASSROOM WOODEN CHAIRS

High quality, hand crafted solid wooden stackable children's chairs.

Ergonomically designed back for optimum posture support and comfort.

Super strong, acrylic scratch resistant multicoated varnish.

Reinforced with a cross bar between the front legs.

Meet recommended EN1729 part 1 Primary Height Size Marks.

REST & CHANGING

FROM BASIC CHANGING AND SLEEP MATS TO OUR HIGH QUALITY PROFESSIONAL SNOOZEMAT®, KIT FOR KIDS HAS EVERYTHING YOU NEED FOR A BUSY CHILDCARE ENVIRONMENT.

Rest & Changing

Our Rest & Changing range includes high quality changing and sleep products and all are made from stain resistant and wipe clean vinyls as hygiene is so important in a busy childcare environment.

Quiet time is as important for development as play time during the early years and our Snoozeland™ Sit & Rest products are perfectly suited to give children a comfortable place to rest or read.

01 Cleaning & Care Guide

Vinyl products can be cleaned with a damp cloth. Never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles.

02 Rest & Changing for Early Years

We conducted a review of the current Early Years Foundation Stage (EYFS) which has enabled us to map out and categorise a number of our products to make it easier for teaching staff to see where our products support the key areas of learning and development.

Please see the table opposite for all of our Rest & Changing products with the key areas for Learning and Development from EYFS highlighted where relevant.
